

## SDVOB COMPANY OVERVIEW

Wise Components goes beyond distribution—we anticipate your needs with local warehouses, a dedicated fleet of union drivers, and rapid delivery across NYC agencies. As an ISO 9001:2015-certified distributor, we've built a proactive supply chain, preventing delays before they happen. Since 1975, our industry-experienced team has ensured you get the right products exactly when needed.

- Power Over Ethernet (POE)
- Power and Power Protection
- Printers, Labels & Labeling Systems
- Racks & Wire Management
- Security Products
- Structured Cabling
- Surface Raceway
- Tools & Testers
- Wireless Solutions
- Tubing and Sleeving
- UPS and PDU

## PAST PERFORMANCES

### FDNY

Partnered with the NYC Fire Department to supply Low Smoke Zero Halogen copper cables, introducing cost-saving manufacturers. Managed deliveries to the FDNY Warehouse, reducing costs by hundreds of thousands for the City of New York. Held regular meetings with FDNY engineers, purchasing teams, and contractors to ensure compliance with stringent specifications and future datacom needs.

### MTA LONG ISLAND RAIL ROAD (LIRR)

Provided various OEM solutions, fiber optic, and copper cables to MTA Long Island Rail Road (LIRR) through the MTA bid process, meeting strict specifications. Hold regular meetings with MTA-LIRR engineers and purchasing teams to introduce new products and review evolving requirements. Act as a liaison between MTA LIRR and manufacturers to ensure all materials meet the latest industry standards.

### NYC DEPARTMENT OF PARKS & RECREATION

Supplied datacom solutions to the New York City Department of Parks & Recreation since 2007. Collaborated with manufacturers such as Hubbell Premise Wiring, Fluke Networks, and APC to provide product insights and demos. Supported NYC Parks with fiber optic cables, network systems, testing materials, and datacom cabinets.
